PROFESSIONAL EXPERIENCE

MANIKARAN POWER LIMITED

Assistant General Manager – Digital Marketing, AI & Technology | *Dec 2023 – Present*

- Lead and contribute to digital transformation, software development, AI automation, and digital marketing initiatives across 12 sister firms.
- Translate business and operational requirements into full-stack web applications, mobile products, APIs, databases, automated workflows, and AI-enabled solutions.
- Use AI-assisted development to accelerate coding, debugging, refactoring, prototyping, API integration, testing, and delivery while reviewing and validating implementation.
- Contributed to the development and enhancement of Kisaan Sampatti, an Android and iOS agricultural platform serving 50,000+ farmers, manufacturers, and traders.
- Develop and maintain internal business applications, including an internal CRM platform for structured customer/business information and workflow management.
- Developed a web-based IT Asset Management application for digital asset records, allocation, tracking, and operational management.
- Developed/integrated an AI-powered WhatsApp chatbot using Retrieval-Augmented Generation (RAG) to enable natural-language access to organizational information.
- Implemented OCR-based automation to extract and process information from documents and images, reducing repetitive manual data processing.
- Identify repetitive internal processes and build software/AI workflows to automate information retrieval, document processing, and operational tasks.
- Work across frontend and backend development, including application interfaces, business logic, APIs, database integration, authentication, and real-time functionality.

- Plan, execute, monitor, and optimize digital campaigns across Google, Meta, and LinkedIn, focusing on lead generation, conversions, audience targeting, and ROI.
- Develop SEO, SEM, social media, analytics, and conversion optimization strategies and use Google Analytics, GTM, and Search Console for performance measurement.

VINAYAK PLY INDUSTRIES

Digital Marketing & Graphic Designer | *Aug 2021 – Nov 2023*

- Managed SEO, SEM, social media marketing, and digital advertising initiatives to improve online visibility, website traffic, and lead generation.
- Conducted keyword research, on-page SEO, technical optimization, and content optimization to improve organic search performance.
- Developed, customized, and maintained WordPress websites, including responsive design, theme customization, content management, and performance optimization.
- Designed advertising banners, social media creatives, promotional graphics, and website layouts for digital campaigns.
- Implemented conversion tracking and A/B testing to evaluate campaign performance and improve lead quality.
- Used analytics and campaign data to identify optimization opportunities across websites and digital marketing channels.

SELECTED PROJECTS

Kisaan Sampatti — Android & iOS — Agricultural digital platform serving 50,000+ farmers, manufacturers, and traders. Contributed to product development, application functionality, integrations, and delivery.

AI-Powered WhatsApp RAG Assistant — Built/integrated a conversational AI solution using RAG to provide context-aware access to organizational information through WhatsApp.

Internal CRM Platform — Developed a full-stack internal CRM to centralize business/customer information and streamline internal workflows.

IT Asset Management System — Developed a web application for digital IT asset records, allocation, tracking, and internal management.

OCR Automation — Implemented document/image OCR workflows to automate information extraction and reduce repetitive manual processing.

Business Process Automation — Built software and AI-assisted workflows to automate repetitive organizational tasks and improve operational efficiency.
